# BlackBerry Logo

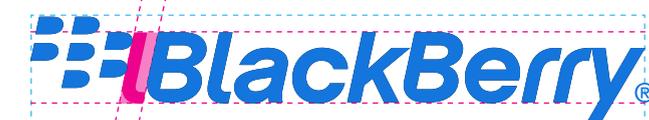

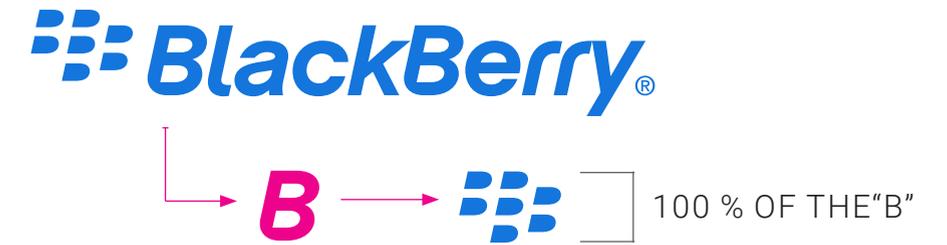

## FORMATTING EXPLANATION

The BlackBerry logo consists of two elements — the BlackBerry Emblem Design and the BlackBerry Word Mark.

The BlackBerry logo is a unique piece of artwork. The proportion and arrangement of the Emblem Design and Word Mark have been specifically determined. The logo should never be typeset, recreated or altered, which could cause inconsistencies that dilute the impact of the brand's power.

## MINIMUM SIZE

The BlackBerry logo retains its visual strength in a wide range of sizes. However, when the logo is reproduced in print at a small size, it is no longer legible and its impact is diminished. The minimum size of the logo for print is determined by the width of the BlackBerry logo mark, which should not be reproduced in a size smaller than 1" width for the BlackBerry logo.

## EXCLUSION ZONE

The "Exclusion Zone" refers to the area around the logo which must **remain free from other copy** to ensure that the logo is not obscured. As the diagram indicates, the cap height of the BlackBerry "B" determines the minimum clear space around the BlackBerry logo.

# BlackBerry Emblem Design

## EXCLUSION ZONE

The “Exclusion Zone” refers to the area around the Emblem Design which must remain free from other copy to ensure that the logo is not obscured. As the diagram indicates, two (2) components of the Emblem Design determines the minimum clear space around the Emblem Design logo.

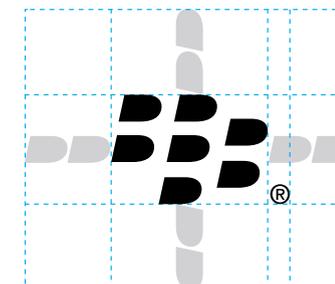

The Emblem Design can be used on its own and must always include the registration symbol. The Emblem Design should never be recreated or altered in any way, which could cause inconsistencies that dilute the impact of the brand’s power.

# Photography

The BlackBerry brand personality and promise are supported by product, lifestyle and contextual imagery.

Images should look and feel photojournalistic. They show people in real situations, doing real things. It's that compassionate, eye-level look into our customer's experience that we strive for in every piece of communication.

Choose images that feature natural lighting and avoid a staged, stock photo look. Select images with a small depth of field, focused on the primary object/person. Abstract images can add further dimension to visual storytelling to convey concepts.

# BlackBerry Spark

BlackBerry Spark is our secure communications platform for our customers' IoT. To preserve the integrity of our brand and our trademark ownership, the platform should always be referred to as "BlackBerry Spark" and not simply "Spark". "BlackBerry Spark" should only be used to reference the platform and not the products that are under it.

## Icons & Graphics

The base icon set has been designed to illustrate a wide range of objects and concepts that fall within the purview of BlackBerry enterprise products. The base icon set will continue to expand over time as new product categories emerge, and existing icons can be combined and recombined to create more complex narratives or illustrative graphics on a case-by-case basis.

Copyright, Trademarks,  
and Attribution of Ownership

## Copyright

In addition to trademark rights, BlackBerry has acquired copyright protection, including obtaining registrations for BlackBerry logos in some jurisdictions. For information concerning copyright in BlackBerry assets, please contact **brand@blackberry.com**.

For digital materials, such as BlackBerry.com, use:

© 2019 BlackBerry Limited. All rights reserved.

## Legal

BlackBerry Limited is the owner of the famous BlackBerry® trademark and other numerous trademarks including word marks, logos, trade dress, service marks and product imagery (“BlackBerry Trademarks”). The BlackBerry Trademarks symbolize the reputation and goodwill of BlackBerry and serve to identify and distinguish its products and services from those of others.

To maintain the distinctiveness of BlackBerry Trademarks as representing BlackBerry’s products, software and services, we must ensure that these assets are properly used.

A sample list of BlackBerry Trademarks is provided below.

## Approval

These BlackBerry Branding Guidelines apply to all materials and communications by any media (“materials”) where BlackBerry Trademarks are used. You must ensure that all personnel responsible for producing such materials adhere to these Guidelines. Please work with a member of the **BlackBerry Brand Marketing Team** on your project to ensure that you are aligning with global creative and messaging directives and execution best practices.

## Attribution of Ownership and Disclaimer

An example of a standard legal attribution statement and disclaimer to be used by licensees is as follows:

*Trademarks, including but not limited to BLACKBERRY, EMBLEM Design, BBM and BLACKBERRY UEM are the trademarks or registered trademarks of BlackBerry Limited, used under license, and the exclusive rights to such trademarks are expressly reserved.*

For use of Word Marks and logos of the subsidiaries of BlackBerry, the attribution statements to the right should be used.

If the content includes trademarks of third parties, you should include their recommended attribution statement or add the phrase “All other trademarks are the property of their respective owners”.

If you have any questions, please contact [brand@blackberry.com](mailto:brand@blackberry.com).

# BlackBerry Trademark Rules

The BlackBerry Trademarks must comply with these guidelines, noting the following:

1. The BlackBerry Word Marks are always used as adjectives and not as a noun or verb.

**Acceptable:** “The BlackBerry® software is . . .”

**Not acceptable:** “The BlackBerry is . . .”

2. The BlackBerry Word Marks are followed by the appropriate generic product or service term. (e.g. software, services, smartphone).

**Acceptable:** “BlackBerry® services”

**Not acceptable:** “BlackBerry”

3. The BlackBerry Word Marks are not used in the plural or possessive form.

**Acceptable:** “BlackBerry® smartphones”

**Not acceptable:** “BlackBerries”

4. The proper product names must be used.

**Acceptable:** “BlackBerry® Workspaces”

**Not acceptable:** “Workspaces by BlackBerry”

5. The proper trademark markings are used for registered [®] and unregistered [™].

**Acceptable:** “BlackBerry®”

**Not acceptable:** “BlackBerry™”

6. Both “B”s in the BlackBerry Word Mark must be capitalized.

**Acceptable:** “BlackBerry®”

**Not acceptable:** “Blackberry”

# BlackBerry Trademarks

These are some of the BlackBerry Word Marks and logos, including those relating to BlackBerry subsidiaries and/or affiliates. The symbol adjacent to the trademark indicates the status of the trademark in the United States (<sup>®</sup> indicates a registered trademark; <sup>™</sup> indicates a trademark). The marks listed as registered <sup>®</sup> may also be registered in other countries.

Please note that the status of BlackBerry Trademarks is subject to change. The absence of a trademark from the sample list does not constitute a waiver of any rights BlackBerry may have in any of its trademarks, product names, service names, logos, and/or product series numbers. It should also not be inferred by such absence that BlackBerry does not use the mark, that the mark is not a registered trademark of BlackBerry or that the BlackBerry product or service is not actively marketed or is not significant within its relevant market.
